

Project Details

Location: Bournemouth

Product: UNITY SF A2 & UNITY TF A2

Finishes: Wood effect

The project focused on faithfully reproducing the original design by integrating Metalline's UNITY A2 Secret Fix rainscreen system, renowned for its non-combustible cassette design and easy installation. This system, chosen for its excellent fire performance, UV resistance, and seamless appearance, was complimented by UNITY A2 Through Fix panels with a wood effect, ensuring harmony with the original façade while offering benefits like UV resistance, durability, and cost-effectiveness.
